ABSTRACT

Two new species of the Malagasy endemic genus *Gyrocarisa* (Trichoptera: Petrothrincidae), *Gyrocarisa scottae*, new species, and *Gyrocarisa weaveri*, new species, are described and illustrated. A key to the males of the known species of *Gyrocarisa*, and additional records of *G. steineri* Weaver and *G. acuta* Weaver are given.

**Key words**: Trichoptera, Petrothrincidae, *Gyrocarisa*, *Gyrocarisa scottae*, *Gyrocarisa weaveri*, new species, new records

INTRODUCTION

In this paper, 2 new species of *Gyrocarisa*, *Gyrocarisa scottae* and *Gyrocarisa weaveri*, are described, both from Fianarantsoa Province, Madagascar.
