
In the legend of Figure 5 (page 46), an accidental omission of “E” and “left second pereiopod” resulted in “F” and “G” not corresponding to the individual figures of the distal minor cheliped and second pereiopod in Figure 5. The correct legend for this figure is as following:

**FIGURE 5. Salmoneus depressus sp. nov.** A–I, paratype, ovigerous specimen (cl 4.8 mm) from Bocas del Toro, Caribbean coast of Panama, MNHN-IU-2011-5175; A, major cheliped, mesial; B, same, lateral; C, major chela, lateral; D, minor cheliped, lateral; E, same, carpus and minor chela, mesial; F, right second pereiopod, lateral; G, left second pereiopod, lateral; H, third pereiopod, lateral; I, fifth pereiopod, lateral. Scale bars as indicated.

The author is grateful to Paulo P.G. Pachelle (LIMCE, Universidade Federal do Ceará, Fortaleza, Brazil) for pointing out this error.
