Abstract. This paper reports four species of the genus *Conocephalus* from Hainan, China, including *Conocephalus* (*Xiphidion*) *hainanensis* sp. nov. and two new records: *C. (Anisoptera) maculatus* (Le Guillou, 1841) and *C. (Conocephalus) bambusanus* Ingrisch, 1990.

Key words. Tettigoniidae, *Conocephalus*, new species, record species, Hainan, China.

Three species of the genus *Conocephalus* Thunberg have been reported from Hainan, China. These are *Conocephalus* (*Anisoptera*) *exemptus* (Walker, 1869), *Conocephalus* (*Anisoptera*) *melaenus* (Haan, 1842) and *Conocephalus* (*Anisoptera*) *longipennis* (De Haan, 1842).

We collected some specimens which belong to the genus *Conocephalus* from Hainan in 2014. They are the following species: *C. (Anisoptera) melaenus* (Haan, 1842), *C. (Anisoptera) maculatus* (Le Guillou, 1841), *C. (Conocephalus) bambusanus* Ingrisch, 1990, and one new species, i.e. *Conocephalus* (*Xiphidion*) *hainanensis* sp. nov. *Conocephalus* is represented in Hainan by 6 species. The material examined is deposited in the Museum of Hebei University.

Conocephalus (Anisoptera) maculatus (Le Guillou, 1841)

Specimens examined. 1♂, Hainan: Wuzhishan (Shuiman), 13 May 2014, collected by Jiao Jiao; 5♀3♂, Hainan: Baisha (Yashicun), 20 May 2014, collected by Jiao Jiao; 1♂, Hainan: Baisha (Yinggezui), 22 May 2014, collected by Jiao Jiao; 1♀, Hainan: Changjiang (Bawangling), 30 May 2014, collected by Guang-Lin Xie.

Distribution. Beijing, Hebei, Shanxi, Shanghai, Zhejiang, Jiangsu, Fujian, Jiangxi, Hubei, Hunan, Guangdong, Guangxi, Hainan, Chongqing, Sichuan, Guizhou, Yunnan, Xizang, Shaanxi, Hong Kong, Taiwan; Japan, Nepal, India, Sri Lanka, New Zealand, Australia, Africa.

Conocephalus (Anisoptera) melaenus (Haan, 1842)

Specimens examined. 1♀, Hainan: Lingshui (Diaoluoshan), 10 May 2014, collected by Jiao Jiao; 1♀, Hainan: Wuzhishan (Shuiman), 12 May 2014, collected by Jiao Jiao; 1♂7♀, Hainan: Baisha (Yashicun), 19–21 May 2014, collected by Jiao Jiao; 1♂1♀, Hainan: Baisha (Yinggezui), 21–23, May 2014, collected by Jiao Jiao; 5♂2♀, Hainan: Changjiang (Bawangling), 30 May 2014, collected by collected by Jiao Jiao.

Distribution. Shanghai, Zhejiang, Jiangsu, Fujian, Anhui, Jiangxi, Henan, Hubei, Hunan, Guangdong, Guangxi, Hainan, Sichuan, Guizhou, Yunnan, Taiwan; Japan, Nepal, India, Thailand, Singapore, Indonesia.

Conocephalus (Conocephalus) bambusanus Ingrisch, 1990

Specimens examined. 2♂3♀, Hainan: Baiaha (Yinggezui), 21–23 May 2014, collected by Jiao Jiao; 5♂3♀, Hainan: Changjiang (Bawangling), 26–29 May 2014, collected by collected by Jiao Jiao.
