
The two species names were inverted on page 314 under Conclusions section. The sentence should read as:

On the basis of the integrative taxonomy approach here presented, we formally propose to raise the two traditionally recognized colour morphotypes, *D. luteocincta* ‘var. reticulata’ and *D. luteocincta* ‘var. alba’, to species rank as *Diaphorodoris luteocincta* and *D. alba* stat. nov. respectively.
