

YANG, XIUSHUAI & LIU, ZHIQI (2010) Notes on the genus *Eumantisp*a Okamoto, 1910 from mainland of China (Neuroptera, Mantispidae). *Zootaxa*, 2669, 57–68.

It has come to our attention that in the work referenced above we unintentionally used two different spellings for the species-group name of the new species described therein. Our intended spelling of the species-group name of the new species was ‘*pseudoharmandi*’, as indicated in the etymological statement for the species. We also used the spelling ‘*paraharmandi*’, a former manuscript name that we had earlier used for the species, in at least five places in the paper (in the figure captions on pages 59, 60, 65 and 67, and in the Remarks text on p. 62). Of these two spellings, we hereby select ‘*pseudoharmandi*’ as the correct original spelling under Art. 24.2.3 of the International Code of Zoological Nomenclature. The correct name of the new species is, therefore, *Eumantisp*a *pseudoharmandi*.
