L. LEE GRISMER, PLATON V. YUSHCHENKO, PARINYA PAWANGKHANANT, ROMAN A. NAZAROV, ALI NAIDUANGCHAN, CHATMONGKON SUWANNAPOOM & NIKOLAY A. POYARKOV (2020) A new species of *Cnemaspis* Strauch (Squamata: Gekkonidae) of the *C. siamensis* group from Tenasserim Mountains, Thailand. *Zootaxa*, 4852: 547–564.

Two errors need to be corrected:

1. The caption on the map in **FIGURE 1** on page 548 should read “Distribution of species in the *Cnemaspis siamensis* group” not “Distribution of species in the *Cnemaspis affinis* group”.
2. GenBank numbers for the “XXXXXXXX and XXXXXXXX” in the last line of paragraph four on page 549 should read “MW051887 for ZMMU R-16391 and MW051887 for AUP-00767”.
